Now more than ever, English proficiency provides a competitive advantage in the global workplace.

Whether you are seeking to build a more proficient workforce or prepare work-ready students, the TOEIC® program – the global standard in English-language assessment for the workplace - can help you achieve your goal.

The TOEIC program consists of a comprehensive portfolio of assessments and accompanying teaching and learning resources.

Assess basic English listening and reading communication skills used in interaction at work or in everyday life with the TOEIC Bridge® test.

And evaluate intermediate to advanced English proficiency for the workplace across all four communication skills with the TOEIC® Listening & Reading and Speaking & Writing tests.

The TOEIC portfolio also includes the Propell ® Teacher Workshops – a series of interactive professional development workshops that helps your English-language teachers prepare learners for the TOEIC assessments and motivate them to develop their skills.

And a variety of official learning & preparation materials help ensure test takers are ready to do their best.

For almost 40 years...

...more than 14,000 organizations...

...across 160 countries have trusted the TOEIC program to provide the reliable and meaningful data they need to make decisions with confidence.

The TOEIC program – Assess to Progress.
